SUMMARY

Full-Stack Developer pursuing a B.Tech in Computer Science (CGPA: 7.9) with hands-on experience building secure, responsive web applications using React, Node.js, Express.js, JavaScript, and Python. Skilled in developing REST APIs, implementing JWT-based authentication, integrating MongoDB and SQL databases, and deploying applications on Vercel and Render. Passionate about building scalable backend systems, intuitive user interfaces, and continuously learning modern web technologies through real-world projects and internships.

EDUCATION

Amity University Jharkhand

Bachelor of Technology, Computer Science and Engineering

May 2023 – May 2027

CGPA: 7.9

Bokaro Ispat Senior Secondary School, CBSE

Class XII (Senior Secondary): 72%

March 2023

MGM Higher Secondary School, CBSE

Class X (Secondary): 92%

March 2021

SKILLS

- **Languages:** Python, C/C++, JavaScript, SQL, Java
- **Frameworks/Libraries:** React, Node.js, Express.js, Flask, Selenium, SQLite3, Redis
- **Domains & Roles:** Full-Stack Web Development Frontend & Backend Engineering
- **UI/UX & Tools:** TailwindCSS, Figma (design + prototyping)
- **Databases:** MongoDB, SQL-based systems
- **Development Practices:** Agile Workflow, Git & GitHub, Code Reviews, Performance Optimization & Debugging, Component-Driven Development, CI/CD Basics, Deployment (Vercel, Render)

EXPERIENCE

Data Automation Engineer Intern

Toyam Investigation and Valuation Pvt. Ltd

July 2025 - Present

Hybrid

- Developed a Flask-based REST API to perform CRUD operations using SQLite3.
- Implemented database connectivity, query execution, and API endpoints for client-server communication.
- Explored RESTful API design, request handling, and backend architecture using Flask.
- Gained hands-on experience with SQL queries, database management, and backend development concepts.

Software Engineer Intern

HackerRank

April 2025 - June 2025

Remote

- Led a team of four to develop a high-performance SQL server using Python, Flask, and SQLite3.
- Built REST APIs for efficient data handling and seamless client-server communication.
- Implemented efficient database management and query handling, ensuring reliability and speed.
- Adopted Agile workflow for collaborative problem-solving and iterative development.
- Collaborated with cross-functional teams to align development with business requirements.

PROJECTS

GeoPharma: Smart Medical Assistance Platform

May 2025

Tools: *React, Tailwind CSS, EasyOCR, ExpressJS, Next.js, Rest API*

- Developed a dynamic medical website enabling prescription reading and medicine suggestions through a user-friendly interface.
- Created REST APIs with EasyOCR library for text extraction, integrated medicine info, alternatives, and buy links via pharmacy APIs.
- Deployed frontend on Vercel and backend on Render with responsive UI, accessibility, and smooth performance.

SysAuth: JWT-Based Secure Authentication

January 2025

Tools: *Node.js, Express.js, JavaScript, JWT, bcryptjs, OAuth 2.0, HTML, Tailwind CSS*

- Developed a secure authentication system supporting email/password login, protected routes, and session-based authentication.
- Implemented JWT-based access and refresh tokens with HTTP-only cookies for secure authentication and session management.
- Integrated Google and GitHub OAuth 2.0 authentication alongside local authentication using bcrypt password hashing.
- Enhanced the client's digital presence, improved customer engagement, and fostered a profitable collaboration.

CERTIFICATIONS

- **Node.js: Backend Development Bootcamp, Udemy:** June 2025
 - Mastered backend development with Node.js, Express, and REST APIs via Udemy.
- **Mastering Keyword Research from Scratch: Discover Untapped SEO Potential, Udemy:** May 2025
 - Mastered SEO keyword research, competitor analysis, and traffic strategies via Udemy.
- **MERN Stack: All You Need to Know with Practical Project, Udemy:** June 2025
 - Mastered React components and rendering optimizations to make UI load and respond multiple times faster.
