SUMMARY

Software engineer with hands-on experience designing REST APIs, relational and NoSQL data models, and cloud-deployed backend systems. Strong foundation in Object-Oriented Programming, Data Structures & Algorithms, and system design. Fast learner focused on writing scalable, maintainable, production-quality code.

EDUCATION

Amity University Jharkhand Bachelor of Technology, Computer Science and Engineering Bokaro Ispat Senior Secondary School, CBSE Class XII (Senior Secondary): 72% MGM Higher Secondary School, CBSE Class X (Secondary): 92%	May 2023 – May 2027 CGPA: 7.9 March 2023 March 2021
---	---

SKILLS

- **Languages:** Java, Python, JavaScript (ES6+), C, C++, SQL
- **Backend:** Spring Boot, Flask, Node.js, Express.js, REST APIs, JWT Authentication, Maven, Redis
- **Framework:** React.js, Next.js, LangChain, LangGraph, HTML, CSS
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools:** Git, GitHub, Postman, GCP, Excel
- **Core CS & Concepts:** Data Structures & Algorithms, OOP, System Design, Collections, Exception Handling, Multithreading, XML/JSON

EXPERIENCE

Data Automation Engineer Intern <i>Toyam Investigation and Valuation Pvt. Ltd</i> - o Developed a Flask-based REST API to perform CRUD operations using SQLite3. - o Implemented database connectivity, query execution, and API endpoints for client-server communication. - o Explored RESTful API design, request handling, and backend architecture using Flask. - o Gained hands-on experience with SQL queries, database management, and backend development concepts.	July 2025 - Present Hybrid
Software Engineer Intern <i>HackerRank</i> - o Led a team of four to develop a high-performance SQL server using Python, Flask, and SQLite3. - o Built REST APIs for efficient data handling and seamless client-server communication. - o Implemented efficient database management and query handling, ensuring reliability and speed. - o Adopted Agile workflow for collaborative problem-solving and iterative development. - o Collaborated with cross-functional teams to align development with business requirements.	April 2025 - June 2025 Remote

PROJECTS

GeoPharma: Smart Medical Assistance Platform Tools: <i>React, Tailwind CSS, EasyOCR, ExpressJS, Rest API</i> - o Developed a dynamic medical website enabling prescription reading and medicine suggestions through a user-friendly interface. - o Created REST APIs with EasyOCR library for text extraction, integrated medicine info, alternatives, and buy links via pharmacy APIs. - o Deployed frontend on Vercel and backend on Render with responsive UI, accessibility, and smooth performance.	May 2025
SysAuth: JWT-Based Secure Authentication Tools: <i>Node.js, Express.js, JavaScript, JWT, bcryptjs, OAuth 2.0, HTML, Tailwind CSS</i> - o Developed a secure authentication system supporting email/password login, protected routes, and session-based authentication. - o Implemented JWT-based access and refresh tokens with HTTP-only cookies for secure authentication and session management. - o Integrated Google and GitHub OAuth 2.0 authentication alongside local authentication using bcrypt password hashing. - o Enhanced the client's digital presence, improved customer engagement, and fostered a profitable collaboration.	January 2025

ACHIEVEMENTS

- **Elite Coder Hackathon Winner (2025):** Developed a full-stack investment platform enabling women to manage portfolios using customized analytics tools
- **IEEE Paper Presentation (2025):** Research paper accepted and presented at an IEEE international conference, contributing to peer-reviewed technical knowledge

CERTIFICATIONS

- **Node.js: Backend Development Bootcamp, Udemy:** June 2025
 - o Mastered backend development with Node.js, Express, and REST APIs via Udemy.
- **Mastering Keyword Research from Scratch: Discover Untapped SEO Potential, Udemy:** May 2025
 - o Mastered SEO keyword research, competitor analysis, and traffic strategies via Udemy.
- **MERN Stack: All You Need to Know with Practical Project, Udemy:** June 2025
 - o Mastered React components and rendering optimizations to make UI load and respond multiple times faster.
